

DATA MANAGEMENT RESOURCES

These online resources were collected and disseminated at the University of Washington Library's Data Management Planning Workshop, which took place August 2016. These links lead to information on UW's general data policies, services, and guides, as well as online articles, infographics and best practices for organizing and formatting your research data, data requirements, data sharing, and data confidentiality.

General

- UW: [UW Data Services and FAQ page](#)
- UW: [Data Management Guide: Data Management Plans](#)

Data Management Plan

- The [Research Data Lifecycle](#) (interactive graphic)
- Data Management Plan [Example](#)
- [DMP Tool](#): Create your own data management plan (DMP) using templates. Review and download samples of DMPs from other researchers.

Data Requirements

- [SPARC](#): Data sharing requirements by federal agency. Can help you prepare your DMP.

Data Roles and Responsibilities

- DataONE Best Practices: [Define Roles and Assign Responsibilities for Data Management](#)

Organization and Format of Data

- [UW Data Management Guide](#): Includes information on file naming

Legal Issues

- UW [Official Data Policy](#)
- HSD [Retention Schedule and Research Data](#)
- Cornell University's [Intellectual Property Rights for Data Management](#)

Data Sharing (General)

- [Nine ways to make it easier to use/reuse data](#)
- [Open Data Commons](#)
- [ICPSR](#): Find and share your data. Includes [instructions on how to share with ICPSR](#) and [Data Preparation Guide](#). Useful tips on how to plan ahead for archiving data and sharing data for yourself and future researchers.
- [UW Research Works](#): If you are a UW researcher you can share your datasets and publications in our own institutional repository. Helps to preserve your work and makes it accessible to everyone.

Metadata and Standards

- University of Washington's [Data Management Metadata Page](#): Explains what metadata is and links to different research metadata standards.
- [Discipline Specific Metadata Standards](#)

Storage and Resources

- University of Washington's [Data Storage Resources](#)

Data Preparation and Confidentiality

- ICPSR [Guide to Social Science Data Preparation](#)
- Library of Congress [Recommended Format](#)
