

Reduce Energy Consumption through Integrated Design: How Do Engineers Translate and Teams Synthesize Energy Modeling in Successful High Performance Building Design?

Hi this is _____ from the University of Washington.

Thank you for taking the time to speak with me. First, did you receive the information statement about the study?

If yes: Great. Let's read through it together and please feel free to ask questions at any time.

[Read through information statement and ensure subjects understand the following:

- *research purpose*
- *procedures*
- *risks*
- *confidentiality*
- *who to contact for research information or information about their rights as a research subject*
- *that research is voluntary and they can withdraw or refuse to participate at any time.]*

[After reading through information statement] Do you have any questions about the study? [Answer any questions]

If no: Ok, let me resend that to you by email now and we can read through it together. [After reading through info statement with potential subject] Do you have any questions about the study?

Do you agree to be in the study? [If yes, continue to next question; **if no**, say "That's ok. Thank you for your time."]

Would it be ok if I record our conversation? [If yes, record, if no, take notes]
