

UNIVERSITY of WASHINGTON

Construction Management

UW Tacoma Minor

Interested in Business, Design, and Engineering?

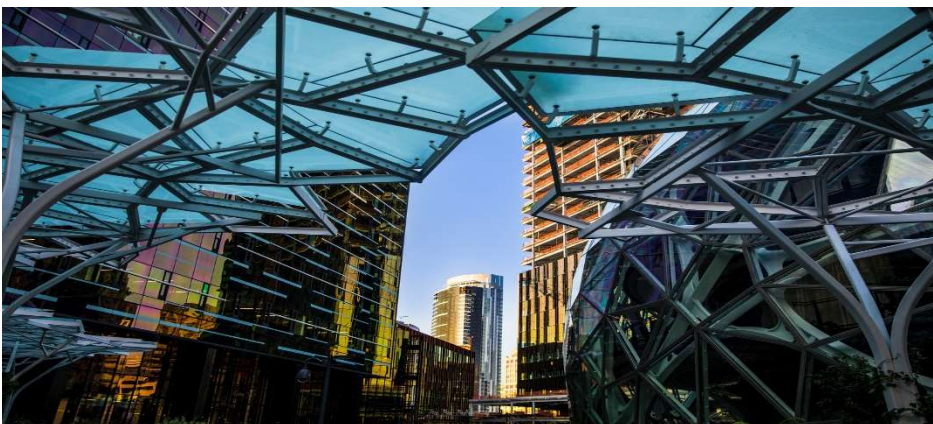

Earn a cross-campus minor in Construction Management using UW-T Engineering courses, in-person Construction Management courses, and hybrid electives.

Construction Management allows students to combine their interests in the built environments, project engineering, and business to earn in-demand skills. Construction managers are **problem solvers** who combine an understanding of business, engineering, and design with expertise in planning, project management, scheduling, safety, and estimating. A minor in Construction Management prepares **future industry leaders** for a professional career as a project engineer or estimator, and a future as a project manager or general contractor.

CONSTRUCTION MANAGEMENT

- > Access paid industry internships before graduation
- > Take Construction Management courses at Tacoma campus offered in-person and hy-flex
- > Curriculum in key construction management skills like safety, estimating, project management, and scheduling
- > No prior construction experience necessary

Admission to the Minor

- **Run your degree audit** – Run a degree audit for your major and for the Construction Management minor. Make sure to select Seattle to view the CM minor See which classes you have completed and what remains.
- **Declare the minor with your academic advisor** – You will work with your major academic advisor to declare the minor
- **Create your course plan** – work with your academic advisor to understand the critical path to minor completion

Required Classes

- Introduction to the Construction Industry – CM 310 or Construction Engineering -- TCE 307
- Construction Documents – CM 311 or CM 320
- Construction Estimating 1 - CM 331
- Construction Safety – CM 333
- Project Planning and Control – CM 411

Electives (may be offered hybrid)

- **Electives available quarterly here:** <https://cm.be.uw.edu/students/undergraduate-programs/minor/tacoma-minor/>

UW-Tacoma Engineering Classes for the Minor

Civil Engineering

- TCE 305 – CAD for Civil Engineers
- TCE 307
- TCE 337
- TCE 492

Mechanical Engineering

- TME 315
- TME 415, 425, OR 426

Electrical Engineering

- TEE 433

\$77,000+

Average starting salary for graduates
in the class of 2023
