Sample BS in Construction Management Transfer Advising Guide

Freshman	Autumn	Cr	Winter	Cr	Spring	Cr
	English Composition 1	5	UW CM Req	5	UW CM Req	5
	UW Gen Ed	5	UW Gen Ed	5	UW CM Req	5
	Math*	5	Math* or AA/AS req	5	Math* or AA/AS req	5
Credits per quarter		15		15		15
Sophomore	Autumn		Winter		Spring	
	Physics 1 with lab	5	Physics 2 with lab	5	UW CM Req	5
	UW Gen Ed	5	UW Gen Ed	5	UW CM Req	5
	UW CM Req	5	UW CM Req	5	AA/AS req	5
Credits per quarter		15		15		15

Consult the University of Washington Community College Equivalency Guide
<https://admit.washington.edu/apply/transfer/equivalency-guide/>

All requirements need to be completed before starting upper division major coursework at UW.

NSc Series Courses: Make a plan
 Math: Calculus 1 (Either business calculus or Calculus 1 is required). Test for your math level when you start your program.
 Sometimes students need multiple quarters (e.g. college algebra, pre-calculus) in order to reach calculus 1
 Physics equivalent to UW PHYS 114/117 and 115/118. = NSc. Students may use calculus-based engineering physics but algebra-based physics is sufficient. Many Physics classes have a math prerequisite and start during Autumn quarter.

General Education Requirements -- 5 credits each
 English Composition 1 -- best to take first quarter = C
 Additional Writing = W
 Diversity = D
 Additional Arts & Humanities = A&H
 Additional Social Sciences =SSc

UW CM requirements
 Public speaking equivalent to UW COM 220 = A&H
 Intro to Geology equivalent to UW ESS 101 = NSc
 Microeconomics equivalent to UW ECON 200 = Ssc
 Accounting 1 equivalent to UW ACCTG 215 or ACCTG 219
 Business Law equivalent to UW MGMT 200
 Digital Tools/Engineering Graphics equivalent to UW ME 123, CEE 291 or CM 260
 Statistics equivalent to UW QMETH 201 OR STAT 220 OR STAT 311 = NSc

AA/AS req -- if your Associate's degree has additional requirements, use this space to meet them, including elective credit

Apply for Construction Management

Apply for admission to UW at <https://admit.washington.edu/>

Transfer Applicants

- Meet with your community college advisor to understand course availability, prerequisites and associates degree requirements
- Attend a [Transfer Thursday](#) event through UW admissions
- Meet with UW CM advisor for class planning
- Attend a UW CM information session for transfer students
- UW Transfer Application Deadline: Feb. 15
- UW CM Major Application Deadline: April 5

\$35,000

Departmental Scholarships awarded to incoming transfer students in 2024

\$80,000

Average salary for 2024 CM graduates

Running Start

- Apply for Freshman Admission
- List Construction Management as first choice major
- Application due November 15

Build your Future

Construction Management is a mix of business, engineering, and design. Students spend the last two years of the degree learning in a cohort, culminating in a real-world capstone project. Learn from world-class researchers and seasoned construction practitioners.

Our in-demand graduates start off as project engineers, junior estimators, and field engineers while working toward careers in project management, safety, development, pre-construction specialists, and construction executives.
